A bright way to support our community!

"Sebastopol Independent Charter School is thrilled that Synergy, a local business owned and operated by SICS alumni family, is offering its support to the Charter Foundation. Partnerships with local businesses are what makes our community strong. I hope you'll consider Synergy for your solar needs - you'll be shining a light on our students in the process."

Susan Olson, Sebastopol Independent Charter School Exec. Director

Synergy is a Sebastopol based solar installation company serving Sonoma County. We are primarily a word of mouth company focusing our resources on our customers and local community. Please join us in reaching our goal of making a difference for Sebastopol children as well as contributing to local economy and the environment.
